## Information on the group in DC:

In the DC area, there is a band that stretches from Springfield westward up through Fairfax that makes up the largest concentration of peoples from the Arab world in the entire region.

Most of the Arab population in DC is coming to us from nations that are becoming more and more closed to Christianity over time. We have a huge opportunity to reach these people for Christ who otherwise we would not have heard the Gospel anywhere else at any other time.

In addition, many seem to be open in this area to spiritual discussions and Gospel conversations.
