

Daniel & Kayla Atondo

San José, California

Missionary Highlight

February 3, 2019

San José, California, is in the heart of Silicon Valley, where people come from all over the world to work in the technology industry.

It's also where many people do not have a relationship with Jesus Christ. That's why Daniel and Kayla Atondo have planted EDEN Church — to reach all kinds of people across San José with the love and hope of Jesus.

Already the church has had a big impact for Christ. For example, one woman who runs a new tech company grew up in another religion and did not attend any church. But one of her friends had begun attending EDEN and so invited the woman. She went one Sunday, then continued attending. Eventually she accepted Christ as her Savior.

She also did what any tech company owner would do: She started a blog about what was interesting to her — in this case, Jesus Christ and her faith journey to know Him better. She has become a passionate witness about her new Savior.

Our church's contributions through the Cooperative Program help support Daniel and Kayla and their two young children as they live and serve there in California. These are OUR missionaries!

Let's pray for them now and ask that God would help them to reach many more people who would come to a passionate faith in Jesus Christ, and that EDEN Church will become a strong supporter of the Christian faith all over the city.
