

Jason & Paige Dees

Atlanta, Georgia

Missionary Highlight

March 3, 2019

Today, let's visit a place called Buckhead. This is actually a part of north central Atlanta where the incomes are above average. Buckhead is where the fanciest malls and shops are. Many people who live in this area are successful and live accordingly.

But most of them live without Jesus in their lives. That's why our missionaries, Jason and Paige Dees, have moved to Buckhead with their three children and planted Christ Covenant Church.

Jason engages people in faith-focused talk about Jesus Christ and the Good News He brought. Strong, Bible-based church services are important, but Jason and Paige see the most evangelistic results from making friends with people they meet around the area.

One victory story is about Rick, who came to Christ Covenant at first to impress a girl. But that one visit led to more visits. Then Rick joined a home group and later became a follower of Christ. That continuing discipleship process has made his faith tangible and God has been doing great things in his life.

Jason and Paige are seeing victories like Rick because our church helps support them through our Cooperative Program giving. Let's join together today and pray that God will send more victories as the new church grows in numbers and influence.
