*“...Jesus saw him lying there and knew that he had already been there a long time...” — John 5:6*

In the middle of a crowd of hurting and hopeless people, Jesus went right up to one specific man. He not only saw him, but He knew what the man was going through.

God always has a way of finding the one in the midst of the many and the individual in the middle of the crowd. God is the only person that can love everyone with the same intensity, care, and attention that He gives to the individual. That is because God's love is endless.

In the middle of a humanity that is hurting and hopeless, be encouraged that even if you feel like no one else notices you, God sees you. Even if you feel like no one understands you, God knows you and knows what you're going through. He knows your struggles, your hurts, your worries, your fears, your passions, and your dreams.

And, He loves you.
