**AGAPE CHINESE CHRISTIAN CHURCH**

*Church Planting Center | Manassas, Virginia*

---

## **About Agape Chinese Christian Church:**

At least 300,000 Chinese students and scholars are currently studying in the United States, and the number continues to grow. Nearly 200,000 Chinese nationals live in Metro Washington, DC alone. Most students and scholars return to their homeland without ever making a Christian friend or hearing the Gospel. These future office workers, professors, and white-collar workers are impacting China's culture and its future.

As a Gospel-driven church, our desire is to share the Good News with them and prepare them to be Christian leaders and witnesses. We want to send transformed Christian leaders back to China who are prepared and committed to being ambassadors of the Gospel for their own people and culture--to teach and plant house churches in China.

## **Ways to Partner:**

We are in need of:

- Prayer for our new church plant
- Financial partners
- Volunteers to help with our English as a Second Language (ESL) ministry

## **Pray:**

- For the growth of the church plant
- For Chinese university students and visiting scholars
- For ministries to immigrants
- For the provision of financial resources
- For improvement in learning English
