

How to use Snow Cone Machine

What You Need:

1. Snow cone machine with scooper
2. Snow cone paper cups
3. Syrup bottles with pumps
4. Ice in a cooler

Setup:

1. Place Snow Cone machine on a level surface
2. Place snow cone cups nearby machine ready for serving
3. Place the ice that you are going to use in a holding cooler
4. Set up the bottles of syrup with the pumps attached ready to be used.

Making a Snow-Cone:

1. Lift handle and place ice in the top of machine.
2. Place the handle down so that it is in the ready position to grind ice.
3. Press the button to turn on the grinder and press down on the handle until all the ice has been pushed through.
4. You may need to do steps 1 -3 to have proper amount of ice for snow cones.
5. Scoop the grinded ice into a snow cone paper cup.
6. Pump the desired amount of syrup on the snow cone and enjoy!

Cleanup:

1. Unplug snow cone machine.
2. Wipe down and dry entire machine inside and out.
3. Clean and rinse out syrup pumps.
4. Place the pumps and scooper inside machine.
5. Place machine and syrup bottles back in the proper spot in the trailer.
